
**National Evaluation of the Sharing
Health Care Initiative**

Final Technical Report

June 2005

Contents

1	<i>Introduction</i>	12
1.1	Background to the Sharing Health Care Initiative _____	13
1.2	Rationale for the SHCI _____	14
1.2.1	The burden of chronic conditions _____	14
1.2.2	Definition and purpose of self-management interventions _____	14
1.2.3	Support for self-management interventions _____	15
1.2.4	Measures of self-management _____	17
1.3	Purpose of the SHCI _____	19
1.4	The Demonstration Projects _____	20
1.4.1	Demonstration Projects _____	20
1.5	Purpose of the report _____	30
1.5.1	Roadmap to the report _____	30
2	<i>The National Evaluation Framework</i>	31
2.1	Purpose of the National Evaluation _____	32
2.2	Background _____	32
2.2.1	Guiding principles for the National Evaluation _____	33
2.3	Methodological considerations _____	34
2.3.1	Defining and measuring success of a national program of Demonstration Projects _____	34
2.4	Conceptual framework _____	37
2.4.1	Hypotheses and evaluation questions _____	38
2.4.2	Domains _____	39
2.4.3	Conceptual framework _____	39
2.5	Implementation of the National Evaluation Framework _____	42
2.5.1	PricewaterhouseCoopers _____	42
2.5.2	Memorandum of Understanding _____	42
2.5.3	Data collection and management _____	43
3	<i>Methods</i>	44
3.1	Demographics – Client Information Questionnaire _____	46
3.2	Process evaluation _____	46
3.2.1	Process mapping _____	46
3.2.2	Project reports _____	50
3.3	Impact evaluation _____	52
3.3.1	Focus groups _____	52
3.3.2	Questionnaires _____	54
3.3.3	Key informant interviews _____	54
3.4	Outcome evaluation _____	58
3.4.1	Questionnaires – Non-Indigenous Demonstration Projects _____	58
3.4.2	Questionnaires – Indigenous Demonstration Projects _____	63

3.4.3	Intervention Schedule	67
4	<i>Results for the Non-Indigenous Demonstration Projects</i>	70
4.1	Sample characteristics and analysis	71
4.1.1	Number of respondents	71
4.1.2	Sample for analysis purposes	71
4.1.3	Repeated measures design	72
4.1.4	Rationale for the selection of variables used in the analysis	72
4.1.5	Change in the demographic profile due to loss to follow-up	73
4.2	Description of the sample	75
4.2.1	Demographic characteristics	75
4.2.2	Health –related circumstances	76
4.3	Process evaluation results – what processes were undertaken during Demonstration Project implementation and how they changed over time	78
4.3.1	Process maps of the non-Indigenous self-management Demonstration Projects in the SHCI	78
4.3.2	Project Reports	103
4.4	Impact and outcome evaluation results	109
4.4.1	Satisfaction, perceptions and experiences of the DP self-management program	109
4.4.2	Change in health over time for the whole group	121
4.4.3	Health outcomes compared with population norms	142
4.5	Influences on impact and outcome	145
4.5.1	Models of service delivery re-visited	145
4.5.2	Change in health over time by Intervention Model	149
4.5.3	Demographic characteristics	176
4.5.4	Multivariate analysis	177
4.5.5	Predicting who benefits most	185
4.6	Sustainability	192
4.6.1	Organisational processes	192
4.6.2	Community capacity and DP self-management program sustainability	199
4.6.3	Major facilitators and barriers to sustainability	207
5	<i>Results for the Indigenous Demonstration Projects</i>	210
5.1	Results for the Indigenous Demonstration Projects	211
5.2	Sample Characteristics and analysis	211
5.2.1	Number of respondents	211
5.2.2	Rationale for selection of variables used in analysis	212
5.2.3	Changes in the demographic profile due to loss to follow-up	214
5.3	Description of the sample	216
5.3.1	Demographic characteristics	216
5.3.2	Health-related circumstances	217
5.4	Process evaluation results – what processes were undertaken during Demonstration Project implementation and how they changed over time	219
5.4.1	Process maps of the Indigenous self-management Demonstration Projects in the SHCI	219
5.4.2	Project Reports	238
5.5	Impact and outcome evaluation results	239

5.5.1	Satisfaction, perceptions and experiences of participants, carers, HSPs and communities in the DPs	239
5.6	Outcome Evaluation Results	252
5.6.1	Relationship between demographic variables, health behaviour and health status at baseline	252
5.6.2	Correlations between health variables at baseline	252
5.6.3	Significant changes from baseline to middle	254
5.6.4	Change in reported pain from baseline to middle	254
5.6.5	Change in reported things that you eat and drink from baseline to middle	255
5.6.6	Significant changes from baseline to last	255
5.6.7	Change in reported tiredness from baseline to middle	256
5.6.8	Change in reported impact of financial situation from middle to last	257
5.7	Sustainability	258
5.7.1	Organisational processes	258
5.7.2	Community capacity and DP self-management program sustainability	263
5.7.3	Main facilitators and barriers to sustainability	271
6	Discussion	273
6.1	Introduction	274
6.2	National Evaluation Framework	275
6.3	Methods	276
6.4	Key learnings	277
6.5	Client	278
6.5.1	Non-Indigenous Demonstration Projects	278
6.5.2	Indigenous Demonstration Projects	289
6.6	Carer/family/ significant other	294
6.6.1	Non-Indigenous Demonstration Projects	294
6.6.2	Indigenous Demonstration Projects	295
6.7	Community	295
6.7.1	Non Indigenous Demonstration Projects	296
6.7.2	Indigenous Demonstration Projects	297
6.8	Health Service Providers	299
6.8.1	Non-Indigenous Demonstration Projects	299
6.8.2	Indigenous Demonstration Projects	302
6.9	Health Service System	303
6.9.1	Non-Indigenous Demonstration Projects	303
6.9.2	Indigenous Demonstration Projects	305
6.10	Future implications for chronic disease self-management	307
6.10.1	Client	307
6.10.2	Carer / family / significant other	307
6.10.3	Health Service Providers	308
6.10.4	Community	309
6.10.5	Health Service System	309
6.11	Strengths of the National Evaluation	311

6.12 Limitations of the evaluation _____ **312**

List of Acronyms

AHS	Area Health Service
AHW	Aboriginal Health Worker
ANCOVA	Analysis of Covariance
CALD	Culturally and Linguistically Diverse
CCI	Community Capacity Index
CCSM	Chronic Condition Self-Management
CDSM	Chronic Disease Self-Management
CHQ	Client Health Questionnaire
CIQ	Client Information Questionnaire
CSUQ	Client Service Use Questionnaire
CSW	Community Support Worker
DoHA	The Australian Government Department of Health and Ageing
DP	Sharing Health Care Demonstration Project
EPC	Enhanced Primary Care
GP	General Practitioner
HSP	Health Service Provider
IM	Information Management
IT	Information Technology
MBS	Medicare Benefits Scheme
MOU	Memorandum of Understanding
NEF	National Evaluation Framework
NGO	Non-Government Organisation
NSW	New South Wales
NT	Northern Territory
PIH	Partners in Health
PwC	PricewaterhouseCoopers
QLD	Queensland
RACGP	Royal Australian College of General Practitioners
SA	South Australia
SHCI	Sharing Health Care Initiative
SMI	Self-Management Intervention

SPSS	Statistical Package for the Social Sciences
TAS	Tasmania
VIC	Victoria
WA	Western Australia
